

# Glass pH Electrode **PCS1501C**

## DATASHEET

| Parameter                | Specifications                                    |
|--------------------------|---|
| Measurement range        | 2-12pH  |
| Measurement accuracy     | $\pm 0.05\text{pH}$                               |
| pH zero point            | $7.00 \pm 0.25$                                   |
| Shell material           | Glass   |
| Wetted material          | PTFE  |
| Pressure range           | 0-0.3Mpa  |
| Temperature compensation | NTC10K/NTC2.2K/PT100/PT1000                       |
| Temperature range        | 0-80°C  |
| Reference system         | Ag/AgCl   |
| Calibration              | Sample calibration, standard solution calibration |
| Membrane resistance      | <300MΩ  |
| Cable length             | 5m cable as standard (Customizable)               |
| Installation thread      | PG13.5  |
| Scope of application     | General water                                     |
